Date Effective:	1 January 2023
Policy Category:	Student
Policy Owner:	National Manager Student Lifecycle

Student life at SEDA should be a rich and positive experience centred on engagement within industry and vocational areas of development. The Student Code of Conduct aims to foster SEDA values and encourage active engagement between SEDA and the student within the contexts of professional practice, teaching and learning, industry experience and the life of the SEDA community.

The purpose of this Code of Conduct is to underpin the SEDA student experience and to define the partnership that exists between students, the staff who teach them and the broader Industry partners and college communities. This code outlines what it means to be student member of the SEDA community and student responsibilities and expectations.

Innovation: to encourage new thinking, listen to ideas and have an open mind.

Professionalism: to deliver on commitments, set high standards, give the best and be consistently reliable.

Collaboration: work together willingly, share challenges and successes.
